
Chemistry = Murder mystery

A murder

Whodunnit? Was it the maid? Or was it the butler? No idea? Well, take a closer look ... because every crime scene is full of hidden clues.

An arrest

When it comes to solving murder mysteries the police now have a helping hand from modern forensic investigation. Because, thanks to chemistry... clues are much easier to come by than in the days of Miss Marple - as all it takes nowadays is one single hair to catch the murderer.

Chemistry is discovering

In your iPod, your Mars bar, your Nikes. Even in the chemical processes in your body. Chemistry continuously makes discoveries about everything. Don't stand on the sideline. Make it your game.
This campaign is an initiative undertaken by companies in the chemical sector, schools and universities. Like to know more??
